

PROJECT PRESENTATION

Be in Europe is a European project launched in the framework of the Erasmus+ programme dealing with adult education.

Be in Europe project proposes to foster active inclusion in Europe. To do so, the European partnership will work together until October 2020.

More precisely, **Be in Europe** aims to design and implement an effective training offer to reinforce not only the basic skills of these populations but also the key competences: it is a question of working on (psycho) social competences and intercultural competences. In addition, a "case study" is planned within the project in order to apply the lessons learned: migrants and enterprises will work together to achieve an intellectual production useful for each group, namely an accompaniment to the creation of activities/entrepreneurship by and for migrants with enterprises.

1ST YEAR COMPLETED

Be in Europe project was officially launched in November 2018.

After one year, the project partners have developed the following tools:

- (a) Migrant learning device to develop psychosocial competences (outcome 1 – O1),
- (b) Learning device for companies: mediation and intercultural competences (O2),
- (c) Support for the creation of activities/entrepreneurship (O3),
- (d) Collaborative platform "Be in Europe" (O4).

This project has been funded with support from the European Commission.

FORTHCOMING IMPLEMENTATION

In the forthcoming weeks, partners will test the developed tools with (representatives of) migrants and enterprises.

The piloting will include:

1. Output 1: Migrant learning device

This training framework has been developed to assist migrants on developing their psychosocial competences. It encompasses a curriculum, a theoretical framework and a toolbox. It tackles the following thematic: self-awareness; creative thinking; problem-solving; decision making; communication skills; intercultural knowledge; resilience; time management; emotional regulation; interpersonal relationships; stress management and attitude: empathy, acceptance.

2. Output 2: Learning device for companies

This training framework is made has been developed to assist professionals, local and migrant workers on the work floor. The aim is to promote intercultural communication and to set up mediation processes when it is needed. Topics to be addressed are: key concepts regarding intercultural competence; profile and tasks of an intercultural mediator; activities to facilitate intercultural mediation; assessment of performance regarding intercultural competence.

3. Output 3: Support for the creation of activities / entrepreneurship

This activity includes some recommendations to organize and lead discussion groups.

4. Output 4: Collaborative platform

Platform developed in 6 European languages including *cliché* activity with the aim of sharing experiences about stereotypes in order to get rid of them and therefore to foster better understanding.

To access more information or to attend a session, please follow your national representative's and/or "Be in Europe" website/Facebook page!

SAVE THE DATES

National meetings will be organized locally by each partner in order to present the project developed tools – follow them on their Facebook page!

A third newsletter of the project **Be in Europe** will be available in Summer 2020: we will make an overview of the developed and available content/training modules and we will share information about national piloting session.
