« I was born in Nador, Morocco. I came to France with my father, in 1985, at the age of 16. I began a learning in carpentry. My adaptation went very well. After that, I worked in the same company for 35 years. When my boss retired, I remained unemployed during one year and decided to become my own boss. I very often made round trips in Morocco. I don't know if I will pass my retirement here or in Morocco. »
